"PMI's recent survey of training providers shows that 80 percent of organizations seeking suppliers of project management training strongly prefer to work with PMI R.E.P.s. They view their affiliation with PMI, as the leading standard-setting professional association for project management, as a stamp of quality on the training services they purchase," said Edwin Andrews, Ph.D., director of academic and educational programs and services at PMI. "Organizations want to protect their investment in project management training, and they know that a PMI R.E.P. delivers such training in a cost-effective and efficient manner."

Currently, there are over 1,300 R.E.P.s in more than 70 countries. These organizations include commercial training providers that design complete educational systems, academic institutions, internal training offices at corporations and government agencies.
